Copenhagen, April 23.

'THE Commissioners appointed for calling in the Money-Bills to be exchanged for Bonds bearing a certain Interest for different Terms of Years, continue to sit at the Town-house twice a Week. This Project takes so well, that not only last Week the said Commissioners delivered out Bonds to the Value of 30000 Crowns, but the Mint-Bills which before this had been at 60 per Cent. more or less Discount, are upon that Account risen a great deal above Par. Soon after the Publication of the King's Ordinance they came at 120 per Cent. they are at present worth 162, and there is no doubt they will rise still higher. Notwithstanding this the presiding Burgmaster of this City, at the Head of 32 other Burghers, went on the 21st Instant to Court, and being admitted to his Majesty's Audience, made Remonstrances against the Use of Paper Commerce, which he alledged to be very prejudicial to Trade, to the great Grievance of the Inhabitants. But it seems no Regard will be taken of their Representations, considering the good Success this Scheme meets with, besides that its Design is to cancel in a few Years all the Mint-Bills, and that the Payment of the Bonds given in Exchange, is secured on sufficient Funds of the Revenue.

Paris, May 1. 'It is given out that above 1200 Persons of the Clergy are preparing to renew their Appeal to a future Council against the Pope's Constitution, and to protest against the Accommodation Cardinal Noailles has entered into. They are Printing here the late Proceedings of the Royal Chamber that had been established at Nantes, against the Persons concerned in the Conspiracies carried on in the Provinces of Britany against the Government.

Hague, April 30. 'Count Rechteren arrived here on the 27th from Overyssel, to sollicit on the behalf of his Brother Lieutenant-General and Governour of Tournay, who lately was sentenced by the Council of State to be suspended for one Year from the Exercise of his Employment, and having his Pay cut off during that Time, for having taken Presents of the Magistrates of that Town, and of some Undertakers for the providing of the Troops, the double Value of which he is to restore according to the said Sentence. It is alledged in his Justification that he took those Presents as Perquisites annexed to his Employment, and that having refused to favour the Persons from whom he received it, in their Demands, they represented the Case in the odious Colours of Bribery. The Count, it is said, designs to enter an Appeal with the States General, for reversing the Sentence of the Council of State, which having the supreme Cognizance in military Affairs, according to the Constitution of this Republick, his Request is like to meet with very great Difficulties. M. Rumpf, the States Resident at Stockholm, having been recommended by the Swedish Court to the Rank and Character of Envoy, their High Mightinesses have this Point at present under their Deliberation.

It is well known a Trade to BARBARY (if well founded and established) will be of great Consequence and Advantage to this Nation; that such a Trade (if well managed) would vend yearly more than 10000 Pieces of Woollen Cloath, besides other Woollen Manufactures, and introduce a continual Friendship with the Emperour of Fez and Morocco, and thereby preserve our Countrymen from being continually carried into Slavery: In order therefore to establish this Trade, and contribute to the Redemption of those our Brethren who are now in Slavery, it is proposed to obtain a Charter for the Purposes before-mentioned, by a Person that not only understands that Trade, and knows the Language and People, but has great Proofs of the present Emperour of Morocco's Favour, with Assurances of any Privileges that may arise by any Settlement or Settlements in any Part of his Dominions. N. B. On Wednesday next, from Nine to Three, Attendance will be given at the Half-Moon Tavern in Cheapside, to take the Names and Places of Abode of such Persons as desire to be Subscribers.
